PROFILE

Computer Engineering graduate with a knack for leading teams and reading markets. I bring analytical thinking, clear communication, and a fast-learning mindset to every problem I take on — whether it's a codebase, a client, or a chart.

EDUCATION

- ◆ **NIT Kurukshetra**
2022 – 2026
B.Tech, Computer Engineering
Class XII: 74.2% (2020) • Class X: 74.4% (2018)

EXPERIENCE

- ◆ **Crypto Trader**
JAN 2023 – 2026
 - ▶ Trade crypto markets — occasionally stocks — using price action and disciplined risk management.
 - ▶ Building toward algorithmic, data-driven strategies.
- ◆ **Sales Team Leader – Loan Against Property**
JUN 2026 – JUL 2026
 - ▶ Led a small sales team, driving client engagement and lead conversion.
 - ▶ Coordinated follow-ups and kept the team on target.

PROJECTS

- ▶ Food Ordering Website — PHP & MySQL
- ▶ Django Authentication System — Python & Django
- ▶ Movie Recommendation System — Machine Learning

HOBBIES & INTERESTS

- ▶ Reading ancient scriptures — mining timeless wisdom for first-principles thinking.
- ▶ Building conceptual models that bridge ancient philosophy with modern logic, testing old ideas against present-day reasoning.
